We are meeting with Chromalloy and Dean Services tomorrow at 10:30 to discuss the RI/FS. I know Bob is out of the office, but I didn't know if you wanted to sit in on the meeting. They want to discuss the Site history and technical issues, other PRP's, the proposed RI/FS work plan and settlement agreement, and timing. Let me know.

Amy,

Mike Daigle will not make it to our office until 9:30 so we probably won't make it to your office until 10:30.

We want to discuss the Site history and technical issues, other PRP's, the proposed RI/FS work plan and settlement agreement, and timing.

Sounds good. I'm hoping he is available, but I haven't heard from him. Please let me know what you would like to discuss so we are prepared in order to have the most productive meeting. Please also let me know who will be attending. Is Dean Services representatives coming? I will let you know his availability as soon as I hear.

I'm sorry about the delay in getting back to you. I was on travel most of this week. I'm checking with people to see about their availability. Did you have a time in mind and how long do you think the meeting will last?

As explained in my voicemail, Chromalloy is granted a 15 day extension to respond to our Special Notice Letter. Chromalloy American LLC's response is now due by August 21, 2015. A letter is being prepared to memorialize this extension. Please let me know possible meeting dates.

Sincerely,

Amy Salinas

The first week of August is not good for me, and our response is currently due Aug. 6. We would like to meet before that is finalized and submitted. Can we do an additional extension?

I am out of the office on travel most of next week. Can you meet the following week, the week of August 3? Have you spoken to Chromalloy about meeting? I am generally available in August if that week is not available.

Dear Amy,

Would you and Brian Mueller be available to meet with me, the legal representative for the Dean entities, our consultant, and perhaps representatives of Chromalloy and the Deans, some day next week or the week of July 27, to go over the Site and EPA's proposed Consent Decree and Statement of Work?
